Frontend Web Developer | WordPress | Shopify | Custom PHP E-Commerce

PROFESSIONAL SUMMARY

Frontend Web Developer with 3+ years building high-performing WordPress, Shopify, and custom PHP e-commerce solutions. Specialized in responsive design, API integration, and performance optimization. Delivered 50+ successful projects with 99.2% uptime and an average 35% improvement in page load performance. Expert at debugging complex integrations and translating designs into pixel-perfect, production-ready code.

CORE TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (Intermediate-Advanced), Responsive Design
Backend & CMS: PHP (Intermediate), WordPress Plugin Development, WooCommerce, Custom Logic
E-Commerce: Shopify, Wix, Squarespace, Secure Payment Integration, Checkout Optimization
APIs & Integration: REST APIs, Webhook Integration, Third-Party Payment Gateways, API Debugging
Optimization: Lighthouse Optimization, Page Speed, Core Web Vitals, Security Hardening
Development Tools: Git/GitHub, Google Analytics, Figma, Photoshop, AI-Assisted Development

WORK EXPERIENCE

Web Developer

Jun 2024 – Present

Systechlogics | Karachi, Pakistan

- Delivered custom WordPress plugin development and API integrations across WooCommerce, Shopify, and custom PHP backends: 50+ successful client deployments with 99.2% uptime, using modular, debugged code, Git version control, and security best practices.
- Improved website performance across CMS platforms: average 35% reduction in page load time and higher Lighthouse scores by optimizing image delivery, minifying CSS/JavaScript, implementing lazy loading, and leveraging caching strategies.
- Built seamless third-party integrations across payment gateways, shipping providers, and affiliate systems with zero API-related post-launch issues by debugging and testing REST API implementations and building custom webhook handlers.
- Implemented responsive, pixel-perfect UI with 100% cross-device compatibility by translating Figma designs into semantic HTML5/CSS3 layouts using a mobile-first approach and rigorous browser testing.
- Automated repetitive development workflows, saving 20+ hours/month per developer, by leveraging AI-assisted tools for debugging, code generation, and documentation while maintaining code quality standards.

Web Developer

2023 – 2024

Skyfit International | Karachi, Pakistan

- Converted PSD designs to WordPress themes, launching 8 custom sites with zero responsive design issues through pixel-perfect CSS layouts, cross-browser debugging, and HTML5/CSS3 standards.
- Optimized e-commerce platforms, achieving a 28% improvement in checkout completion rate by enhancing UX, integrating secure payment gateways, and troubleshooting WooCommerce plugin conflicts.
- Hardened website security with zero security breaches across active client sites by applying WordPress security best practices, configuring firewalls, and conducting regular vulnerability audits.
- Drove data-informed site improvements, including a 19% increase in organic traffic, by analyzing Google Analytics patterns, identifying performance bottlenecks, and refining design based on user behavior.

Property Assistant

2021 – 2023

Falaknas Group | Karachi, Pakistan

- Developed strong client relationship management and analytical skills that informed the transition to technical development roles; built foundational experience in client communication, attention to detail, and process-oriented workflows.

Online Mobile Sales Executive

2020 – 2021

Self-Employed | Karachi, Pakistan

- Managed end-to-end online sales of mobile phones and accessories via social media and e-commerce platforms, consistently meeting monthly revenue targets through targeted product listings and promotional strategies.
- Built lasting customer relationships by providing personalized product recommendations, transparent communication, and reliable after-sales support, resulting in high repeat purchase rates and positive customer feedback.
- Handled inventory tracking, order fulfillment, secure payment processing, and logistics coordination to ensure smooth transactions and minimal order issues.
